

Developing Robust Below Ground Waterproofing Strategies Compliant with BS 8102:2022

CPD SEMINAR

The following topics will be discussed in the seminar:

Duration: up to 45 minutes

- **About GCP**
- **Industry Standards & Best Practice**
 - BS 8102:2022
 - NHBC – Chapter 5.4
 - BS 8485:2019+A1
 - Property Care Association
 - Institution of Civil Engineers (ICE)
 - CIRIA Report 139
- **Waterproofing Strategy**
 - Waterproofing Specialist & Design Team
 - Design Flow Chart
 - Client Requirements
 - Site Evaluation Desk Study
 - Site Evaluation Risk Assessment
 - Water Table Classification
 - Potential Water Ingress
 - Consequences of Failure
- **Waterproofing System Selection**
 - BS 8102:2022 Basement Grades
 - BS 8102:2022 Protection Types
 - GCP Solutions – Type A, B, C
 - Combined Protection Systems
 - GCP Waterproofing Portfolio
- **Key Considerations**
- **GCP Service & Support**
 - Performance Data, Certifications & Approvals
 - Product Documentation & Standard Details
 - On-site support, Training, Bespoke Project Details
 - GCP track record
- **Q&A**
